20th Anniversary of Mt. Taylor
Southwest Indigenous Uranium Forum

The Forum proposes to focus much-needed public attention on the Rape of Mount Taylor and to serve as a vehicle to launch a regional intertribal campaign to end this madness in the Grants Mineral Belt , Lakota Lands and elsewhere in Indian Country, from Grand Canyon to White Mesa where deadly and runaway uranium technology threatens the lives and future of our water, land, people and our winged, four legged and those that crawl relatives.

Call 505-726-9392 for more information-we need volunteers.

LEAVE URANIUM IN THE GROUND
